

Section I – Product and Company Identification

Product Name: CITRIC ACID 50%; CA50-4,
CA50-10

Synonyms: Citric Acid, Anhydrous

Chemicals present: See components below

Recommended use: Professional use

Company Identification:

Chief Medical Supplies Ltd.
411 – 19 Street, S. E.
Calgary, AB., Canada.
T2E 6J7
1.866.620.6034

For information, call:

1-403-207-6034

Emergency Number:

1-613-996-6666

Section II – Hazards Identification

Hazard classification:

Eye Irritation (Category 2A)

Signal word:

Warning

Symbol:

Hazard statement:

H319 – Causes serious eye irritation.

Precautionary statement(s):

P280 – Wear eye protection

P302 + 352 – IF ON SKIN: Wash with plenty of water

P305 + P351 + P338 – IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

P337 + P313 – If eye irritation persists get medical advice/attention.

Other hazards which do not result in classification: No additional information available.

Label elements: Safety data sheet available on request

Section III – Composition/Information on Ingredients

Ingredient Name	Chemical Formula	CAS No.	% by weight
Citric Acid	C ₆ H ₈ O ₇	77-92-9	50%
Water	H ₂ O	7732-18-5	50%

Section IV – First Aid Measures

First-aid measures:

Skin Contact: In case of contact, flush skin with plenty of water. Remove contaminated clothing and shoes. Get medical aid if irritation develops and persists. Wash clothing before reuse.

Eye Contact: In case of contact, immediately flush eyes with plenty of water for at least 15 minutes. Get medical aid.

Inhalation: If inhaled, remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Get medical aid.

Ingestion: If swallowed, do not induce vomiting unless directed to do so by medical personnel. Never give anything by mouth to an unconscious person. Get medical aid.

Symptoms and effects:

Inhalation: May cause respiratory tract irritation.

Skin contact: May cause slight skin irritation.

Eye contact: Causes serious eye irritation.

Ingestion: Causes gastrointestinal irritation with nausea.

Immediate medical attention and special treatment:

Symptoms may not appear immediately. In case of accident or feeling of illness, seek medical advice immediately (show the label or SDS where possible).

Section V – Fire Fighting Measures

Suitable extinguishing media:

Use water spray, alcohol-resistant foam, dry chemical or carbon dioxide.

Unsuitable extinguishing media:

Do not use a heavy water stream. Use of heavy stream of water may spread fire.

Specific hazards arising from the hazardous product:

Not known.

Hazardous combustion products:

Not known.

Special protective equipment and precautions for fire-fighters:

Wear self-contained breathing apparatus and suitable protective clothing for firefighting if necessary.

Section VI – Accidental Release Measures

Personal precautions, protective equipment and emergency procedures:

General measures: Use proper personal protective equipment as indicated in Section 8. Provide adequate ventilation.

Environmental Precautions: Keep product out of drains, sewers, ditches, and waterways.

Methods and materials for containment and cleaning up:

Containment: Provide ventilation for containers. Avoid storage near extreme heat, ignition sources or open flames.

Spills: Vacuum or sweep up material and place into a suitable disposal container. Clean up spills immediately. Avoid creating airborne particles. Provide ventilation.

Section VII – Handling and Storage

Precautions for safe handling: Handle in accordance with good industrial hygiene and safety procedures. Avoid contact with skin and eyes. Do not eat, drink or smoke when using this product. Always wash hands after handling the product.

Conditions for safe storage (including incompatible materials): Store in tightly closed original container in a dry, cool and well ventilated place. Keep in original container.

Section VIII – Exposure Controls/Personal Protection

Control parameters:

Potassium Chloride		
ACGIH (TLV)	NIOSH (REL)	OSHA (PEL)
N/A	N/A	N/A

Engineering Controls:

Use process enclosures, local exhaust ventilation, or other engineering controls to keep airborne levels below recommended exposure limits. If user operations generate dust, fume or mist, use ventilation to keep exposure to airborne contaminants below the exposure limit.

Individual protection measures (Personal Protection Equipment):

Eyewear: Protective goggles

Gloves: Protective gloves

Clothing: Wear appropriate protective clothing to prevent skin exposure.

Respiratory protection: Follow the OSHA respirator regulations found in 29 CFR 1910.134. Use a NIOSH/MSHA approved respirator if exposure limits are exceeded or if irritation or other symptoms are experienced.

Section IX – Physical and Chemical Properties

Physical state:	Solid
Appearance:	White Powder / Granule / Crystal
Odour:	None
Odour threshold:	No data available
pH:	1-2
Melting point/Freezing point:	No data available
Initial boiling point/boiling range:	No data available
Flash point:	No data available
Evaporation rate:	No data available
Flammability (solid; gas):	No data available
Lower flammable/explosive limit:	No data available
Upper flammable/explosive limit:	No data available
Vapour pressure:	No data available
Vapour density:	No data available
Relative density:	1.19
Solubility:	No data available
Partition coefficient:	No data available
Auto-ignition temperature:	No data available
Decomposition temperature:	No data available
Viscosity:	No data available

Section X – Stability and Reactivity

Reactivity: Nonreactive in normal condition.
Chemical stability: Stable in normal condition.
Possibility of hazardous reactions: None in normal condition.
Conditions to avoid: Avoid high temperatures. Avoid incompatible materials.
Incompatible materials: Strong acid and bases.
Hazardous decomposition products: Carbon monoxide, carbon dioxide.
Hazardous polymerization: No data available.

Section XI – Toxicological Information

Route of exposure:

Absorbed through skin. Dermal contact. Eye contact. Inhalation. Ingestion.

Symptoms related to the physical, chemical and toxicological characteristics:

Skin: Not expected to cause skin irritation.

Eyes: Causes serious irritation to the eyes.

Inhalation: Causes irritation to the respiratory tract.

Ingestion: May cause gastrointestinal discomfort.

Effects of chronic exposure:

None expected under normal conditions of use.

Acute toxicity:

ACUTE ANIMAL TOXICITY DATA:

Chemical Substance	Oral LD50 (mg/kg)
Potassium Chloride	N/A

Carcinogenicity: Not available

Reproductive toxicity: Not available

Teratogenicity: Not available

Mutagenicity: Not available

Toxicologically synergistic products: Not available

Section XII – Ecological Information

Ecotoxicity: No additional information available.

Persistence and degradability: No additional information available.

Bioaccumulative potential: No additional information available.

Mobility in soil: No additional information available.

Other adverse effects: No additional information available.

Section XIII – Disposal Considerations

Waste disposal: This material must be disposed of in accordance with all local, state, provincial, and federal regulations. The generation of waste should be avoided or minimized wherever possible.

Section XIV – Transport Information

UN number: No data available

UN proper shipping name: No data available

Transport hazard class(es): No data available

Packing group: No data available

Environmental hazards: No data available

Special shipping information: No data available

Section XV – Regulatory Information

Section XVI – Other Information

SDS creation date: Jun 15, 2011

Last revision date: May 30, 2019

The information above is believed to be accurate and represents the best information currently available to us. However, we make no warranty of merchantability or any other warranty, express or implied, with respect to such information, and we assume no liability resulting from its use. Users should make their own investigations to determine the suitability of the information for their particular purposes. In no event shall Chief Medical Supplies be liable for any claims, losses, or damages of any third party or for lost profits or any special, indirect, incidental, consequential or exemplary damages, howsoever arising, even if Chief Medical Supplies has been advised of the possibility of such damages.

***This product has been classified in accordance with the hazard criteria of the CPR
and the SDS contains all of the information required by the CPR***
