

ButtonHole[®]

Needle Set with SteriPick[™]

**STERILITY,
CONVENIENCE,
SAVINGS.**

ButtonHole Needle Set with SteriPick

Every item comes with the same high-quality Medisystems ButtonHole® needle set as before.

- Anti-stick dull bevel
- Repeated cannulation of the same site
- Excellent option for the home or self-care patient

The SteriPick provides a highly effective solution for safe removal of the ButtonHole scab.

- Sterile, single use tool with each needle
- Replaces the need for tweezers or other separate instruments in removing the scab
- Designed to lower risk of infection when accessing site
